Facetiae.

—When Boston takes snuff the people all over the State sneeze "Massachusetts."

—A writer may be said to be more free than a king, inasmuch as he can "choose his own subjects."

—When Adam asked Eve for the first kiss, what was her reply? I don't care Adam, if you do.

Open your mouth but seldom, and never but to the point and purpose; shut it close when misjudging friendship holds the glass to your lips.

Be slow in choosing a friend and slower to change him; courteous to all; intimate with few; slight no man for his humbleness, nor esteem any for their wealth and greatness.

When old Jacob Strawn, of Jacksonville, Morgan Co. Ill., was called on by a newspaper reporter to give to the public the benefit of his experience as a drover and cattle feeder, he confined his advice principally to three points—saying that if the farmers of a community attended to these matters they were sure of prosperity. First, they should build good roads, and keep them in repair; second that they should do the like with their fences; and third, that they should go to bed at 6 o'clock and rise at 6 o'clock in winter, and go to bed at sundown and rise at sunrise in the summer.

AN ANCIENT PRINTING PRESS.—It is generally supposed that the art of printing from movable types was discovered by Gutenberg in the fifteenth century. Recent excavations in the Benares district, in India, have brought to light a kind of printing press, set up in a vault, and on it movable types, placed as it were ready for printing, which, it was judged had remained in the state in which they were found for at least a thousand years.

WHO ARE TO BE OUR MECHANICS?—It is a noticeable fact, that in the large workshops, manufactories, and foundries in our cities, at least three-fourths of the workmen, and almost all of the younger journeymen and apprentices are foreign born, or the sons of foreign parents. Many American parents bring up their children to feel that manual and mechanical arts are not as genteel as other professions, so that they are falling into the hands of foreigners.

MARK TWAIN ON FEMALE SUFFRAGE.—"Mark Twain" writes to his "Cousin Jennie" on the subject of "female suffrage," as follows:

"There is one insuperable obstacle in the way of female suffrage, Jennie. I approach the subject with fear and trembling; but it must out. A woman would never vote, because she would have to tell her age at the polls. And even if she did dare to vote once or twice when she was just of age, you know what dire results would flow from 'putting this and that together' in after times. For instance, in an unguarded moment, Miss A. says she voted for Mr. Smith. Her auditor, who knows that it is seven years since Smith ran for anything, easily cyphers out that she is at least seven years over age, instead of the young pullet she has been making herself out to be. No, Jennie, this new fashion of registering the name, age, residence, and occupation of every voter, is a fatal bar to female suffrage."

GREAT IMPROVEMENT IN DENTISTRY.

THE ATTENTION of the public is called to a great discovery in Dentistry.

THE GREATEST ADVANCE STEP EVER MADE IN THE ART.

The main difficulty in wearing artificial teeth is, they do not hold in their place firmly enough, and add to this the annoyance of food getting under the plate while eating. I have discovered a method of so constructing the plate on which the teeth are set that they will not start or drop while eating or speaking, neither will any particles of food get under the plate, no matter what the condition of the mouth is, which is not true of any method hitherto used.

I have secured Letters Patent for the United States, England and France.

The improvement is not in material, but in the construction, which causes the atmospheric pressure on the entire plate.

I have sold the exclusive of said improvement to Dr. L. Gilman, of the Counties of Franklin, Washington, Chittenden, Lamoille and Grand Isle. Those wishing to avail themselves of such improvement, will call on
